T-11271

Tomato indeterminate Elongated

Plant of high medium vigor, open structure. Oval fruits, slightly longed, thick fruit of 120-140 g, very good vine formation to be harvested in clusters. It is notable for its production in any cycle and conditions, as well as for its rusticity and high resistance to viruses. Resistant to TMV/V/F:1,2 and intermediate resistance to TSWV and TYLCV.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in orther particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
