

SQ-5214

DARK variety of vigorous plant but quite open, and dark color. Leaves are dark green, large, very serrated and mottled marked. The fruit is long, cylindrical and dark green with hardly mottling. It is noted for its excellent production, extraordinary resistance to VIRUS both in plant and fruit, and is resistant to POWDERY MILDEW too.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in other particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
