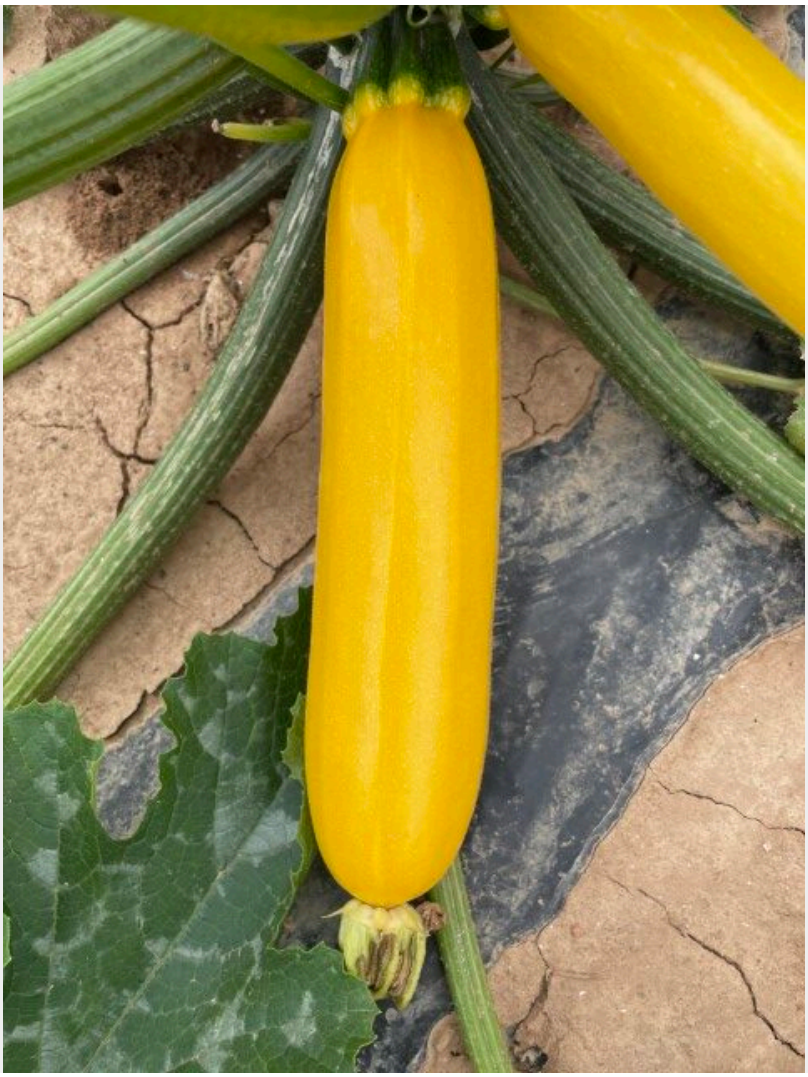
CZI-10410



YELLOW squash, perfectly cylindrical and very straight, without strangulation. The fruit maintains its dark green peduncle from the beginning of the harvest. It stands out for its excellent response to virus and powdery mildew pressure, developing a vigorous plant with large leaves, very lobed and with intense mottling.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in orther particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
