S-10829

YELLOW FLESH TRIPLOID watermelon. Noted for its great organoleptic quality and resistance to over-ripening. Recommended in early plantings where varieties of good size and productive potential are required and also in outdoor cultivation, in adverse conditions of high temperatures, where their quality is excellent.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in orther particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
