

TF-10138

INDETERMINATE tomato variety of the MARMANDE type of bright red colour. It develops a large fruit between 340-360 g, noted for its good flavour, hardness, high production and resistance to cracking. A vigorous plant that adapts both outdoors and in a greenhouse. It stands out for its durability, good flavour and complete package of resistances.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in other particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
