CE-10257

SHORT DAY onion with medium-late maturation, for collections of the last week of APRIL. It stands out for the great vigor of the plant, the uniformity of the bulbs, dark external color, with very well closed skins and its great resistance that allows it to be sown in a wide range of dates.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in orther particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
