Melon Sapo

PIEL DE SAPO melon, with a LONG and medium fruit of about 3.2 kg of average weight, very stable in all areas. It has abundant and intense longitudinal writing on a very dark green background. Its main characteristic is the high quality of the fruit, both for being crunchy, hard meat and a lot of flavor. Plant with good vigor and excellent response in the presence of powdery mildew.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in other particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
