

## M-6358

### Melon Yellow Semiwrinkled - Phase 3

YELLOW melon of semi-round type, and with an average weight of 2.1-2.5 kg. Fruit with a round-oval shape, very little writing and very soft roughness. It stands out for its VERY intense yellow color. Tough and crispy meat of good organoleptic quality. The plant is quite vigorous, dark and with excellent response to the presence of powdery mildew.
