P-10133

Hot pepper of the Troner type with fruits 1-2 x 10-14 cm and a very spicy placenta. Bright green color that turns intense red when fully ripe. The plant is tall, with good vigor, very early cycle, which is characterized by notable fertility, guaranteeing high productions far superior to common standard varieties. Suitable for spring-summer cultivation both outdoors and in a greenhouse. It has high resistance (HR) to Tobamovirus (Tm:0-3).

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in orther particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
