R-10074

WHITE RADISH variety, unique in the market for its high resistance to flower rise in winter plantings. It also stands out for its small but very dark and healthy plant. It develops a root perfectly cylindrical and very well finished, very white, smooth and without green neck.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in orther particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
