

S-11107

Dark striped watermelon

TRIPLOID variety of the DARK STRIPED type and LARGE size that falls within the Zebra segment but with a completely round shape and weight between 5.5 and 6.5 kg. It stands out for its very crunchy and sweet pulp with a superb red color. The plant is very healthy and of medium vigor. Resistant to powdery mildew and anthracnose.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in other particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
