S-9204

Variety of dark skin. It doesn't have any type of veining on the ripening. Round fruit and average weight of 4.5-5.2 kg. The rind is very resistant, which makes it good for transport. Flesh of intense red color and upper 14° Brix. Uniform fruit, both in shape and weight.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in orther particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
