

SQ-5188

Variety of WHITE type. Vigorous plant, dark and healthy. It is notable for its lacks mottling on its leaves, and its low density which allows it to be grown in greenhouse. The fruit is slightly bulbous without edges, high uniformity, extremely healthy. Very resistant to VIRUS. Good result in winter cultivations.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in other particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
