

T-12367

INDETERMINATE type of SANMARZANO type but more cylindrical and not pear shape. The fruit size is between 130-150 g of average weight, being of very good hardness, without showing green shoulders and standing out for its good uniformity. The plant is vigorous, with curly leaves and with very good health.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in other particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
