T-12598

PINK MARMAMDE type tomato without green shoulders. It stands out for its thick fruit of between 300-350 g, and the absence of cracking despite its flat and ribbed shape. It develops a very vigorous, very dark and very healthy plant and high production. It has double resistance to TSWV and TYLCV.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in orther particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
