T-12698

A novelty in the PINK TOMATO market with resistance to ToBRFV and TYLCV. This variety of INDETERMINATE type size stands out for its excellent adaptation both to winter cultivation in the greenhouse and outdoors. It produces a beef-like fruit, gently flattened, of good size, hard and with little ribbing.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in orther particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
