

TF-3490

Tomato indeterminate Green shoulder

INDETERMINATED tomato of vigorous and very productive plant. Especially recommended for early production, both for open field and greenhouse. Thick fruit, multilocular, 270-300 gr. With green shoulder and slightly flattened round shape. It also noted for its great organoleptic quality. Ideal for domestic market. Resistant to nematodes.

(*) These data were obtained from numerous trials in different areas. They must not be taken as an accurate guide of product performance in other particular conditions because results could vary according to the weather, growing conditions and disease pressure conditions and disease pressure.
